

# MERCEDES OWNERS REV UP FOR 40% SAVINGS ON SERVICES THIS WINTER

Mercedes owners can benefit from up to 40% savings on motor servicing, whilst enjoying a free Winter check up from engineering specialists, MB Wirral.

Specialising in Mercedes vehicles of all ages, MB Wirral offers the same expert levels of service and delivery expected of a main dealer garage, but at a cost savings benefits.

MB Wirral was launched just 18 months ago by former Mercedes Benz of Wirral workshop technicians Rob Stead and Steve Fisher who have launched a Wirral-base workshop fitted out with state of the art Mercedes engineering kit, identical to the systems and kit used by any main dealer.

The company offer a comprehensive service range from servicing to diag-

nostics, bodywork and MOT testing. MB Wirral is attracting customers from across Merseyside and Cheshire who own Mercedes vehicles of any age. Owners of vehicles three years and younger has been a huge growth market for the company as customers continue to realise that they can use garages that aren't part of main dealerships for servicing, with no impact on the warranty.

The company has recently expanded into new, larger premises at Carr Lane Industrial Estate in Hoylake, appointing a new technician and two new apprentices.

Rob continued: "We recognise that we took a risk by opening the business at a difficult time in terms of the economic downturn but believe that this has paid off as customers continue to look for an altern-

ative service to that provided by traditional dealerships. We look forward to expanding our business further into 2011, continuing to meet the needs of our growing customer base."

# SAVE UP TO 40% OVER MAIN DEALER SERVICE CHARGES
