3 Stars for Mercedes Experts

We all recognise the 3 point star of Mercedes is associated with super-style, performance and outstanding quality.

Well now we have our very own 'Mercedes Stars' in the form of local specialists Rob Stead and Steve Fisher from MB Wirral.

The former Mercedes Benz (Wirral) Service Managers boast over 30 years combined experience and it shows. With an ever-growing client base and outstanding reputation for service the guys have established themselves as the leading Mercedes experts on the peninsula.

Company Director Steve commented, 'we are finding that our local Wirral client base prefer to use a local garage

rather than travelling out to Chester and Liverpool. Many have also commented that they prefer our personal approach to the less personal main dealer experience.'

And customers needn't worry about protecting their warranties – as certified Diagnostic and Systems technicians the team can provide a full and accredited service, offering clients complete peace of mind.

The team, who are celebrating their first Birthday in April, have recently added to the team with a new apprentice. With an ever growing client list and a growing reputation for excellence it seems we will be wishing MB Wirral 'Happy Birthday' for many years to come!
